SWAIM'S

Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof. of Surgery, Pa. Univ.

Valentine Mott, M. D., Prof. of Surgery, New York University.

W. P. Dewees, M D., Prof of M. A., Pa. Univ.

N. Chapman, M. D., Prof. of Physic, Pa. Univ.

T. Parke, M. D., Pres't College Physicians, Phila.

Dr Del Valle, Professor of Medicine, Havana.

Jose Eourenco de Luz, Prof. of Surgery, Lisbon.

J. Chipman, Member Royal College Surgeons, London.

G. W. Erving, late Minister to Spain.

Sir Thomas Pearson, Maj Gen. British Army.

Gilbert Robertson, British Consul, &c. &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infants.

The retail price has been reduced to $1.50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned stripes, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work stripe, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and label, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

REMOVAL.

United States and Foreign PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

12 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber; without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 22, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, once a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business [illegible] practice of the office, and that his scientific attainments are eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, S. H. LANE, Principal Examiners.

F. SOUTHGATE SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON, Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD, Late Principal Examiner of Patents.

WHAT WILL MR DOUGLAS DO?—The position of Senator Douglas in relation to the Democratic party is becoming every day more critical. He still insists upon his connection with that party, and claims to be a member in good standing; but the recognized leaders at Washington and the democratic majority in the Senate have substantially rejected his claims to good standing, by degrading him from his leading position as Chairman of the Committee on Territories, and making the insult, if possible, more cutting by the cool performance during the Senator's absence from Washington. Mr Douglas has been deliberately disgraced by his party friends; and the question now is, how will he receive the treatment? We scarcely see how self-respect can permit him to continue his former party relations. After being coolly reduced to the ranks by the southern leaders and their doughfaced allies, for alleged treason to democracy, can he still support the party? "Democracy" has declared, by the mouth of its Congressional representatives, that it wants no more of the leadership of Mr Douglas. What will Mr Douglas do? Will he insist upon leading a democracy that kicks him out of its camp. If not—where is he to go? Will he set up a democratic party of his own, in defiance of the Administration, and *of the entire South*, which, in such an event, would be sure to unite against him? If he should try this experiment, what headway would he be likely to make—*as a modern democrat, and while sustaining the pro slavery dogmas of the Supreme Court?* Can Mr Douglas do anything in the north while in opposition to the Republican party—in his principles and his action? We think not. If repudiated by the pro-slavery democracy, as it now seems certain that he will be, he cannot obtain the mastery of the democratic party *of the nation*, by any mere northern demonstration. He must again conciliate the South by concessions, or else a powerless in the party. Will he do it?—is now the question which his arrival at Washington is expected to solve. If he refuses, he is politically dead with his party, and he has no escape from oblivion except to go openly and manfully into the opposition—to unite himself with the Republican organization, and take his place in its ranks as a true friend of freedom and an unreserved opponent of the extension of slavery—rejecting the doctrine of the Dred Scott decision,—and declaring, with the free sentiment of the North, that our constitution is not to be construed as an instrument for the enslaving of men.

A NEW AND IMPORTANT PROJECT.—It is stated that a company has recently been formed in New York, where so many magnificent enterprises originate, for no less a purpose than to establish a line of powerful tug steamers to tow vessels from ocean to ocean through the Straits of Magellan; and that, provided the Government of Chili agrees to certain proposals which the company has already addressed to them, steps will be immediately taken to carry the design into execution. The projectors are sanguine of its success. They assert that the passage of the Straits may be made quickly and safely by vessels of any tonnage, with the assistance of steam tugs, and they calculate that the saving of time to vessels passing the Straits, as compared with "doubling the Cape," would, on an average, be fully 20 days, basing their calculation on Lieut Maury's statement that the average time required for rounding Cape Horn is 24 days. They estimate that the saving of 20 days in interest and in insurance on vessel and cargo, and on wear and tear of vessel, &c. would not be less than $1,000,000.

Still their requirements upon the government of Chili would appear to be disproportionate to the amount of benefit probably accruing to the citizens *of that* country. The parties to be most largely benefitted are English and American merchants. The conditions which the company require the Chilean government to grant are:

1 The payment of an annual subsidy of $125,000 for ten years, and then of $75,000 for an additional term of ten years.

2 A lease at a nominal rate of all the coal deposits at Punta Arenas, for ten years.

3. A grant in perpetuity of the lands required for stations along the route.

4 A lease for ten years, at a nominal rate, of such wood lands as may be required for the Company's use, and a grant in perpetuity of all lands cleared by the Company.

5. The subsidy to be paid from the date of the arrival of the first tug steamer at the Straits.

It is said that the project has been submitted to many influential parties connected with shipping interests, and that it has generally met with a very warm approval. Captain Ezra Nye, the well known shipmaster is understood to be prominently connected with the enterprise.

An Irishman in Northampton stole ten chickens from Miss Ann L. Clark, killed and cut them up, and buried the pieces and appendages. The sheriff scouted the burial-place out, dug them up, and proved them to be Miss Clark's chickens, first by the coincidence of there being just twenty legs in the lot, and second and conclusively by finding the long-kernelled southern corn, with which Miss Clark fed her biddies, in the crops.

THE SCHOOL QUESTION. We permit our Committee friends to have their say—although we must not be understood as thereby endorsing all their views, or particularly the views of any other correspondent whose articles we may print. We certainly disagree with the writer of to-day, in his estimate of the robust condition of school children generally. The fact that no deaths occurred during four or five weeks this fall, (a fact curious enough to be the subject of great marvel,) does not, as we see, disprove the assertion that the health of many children (girls especially) is permanently injured, and many of the pupils brought to premature graves, by over-study, improper confinement, and the forcing system. Many lamented deaths are believed to have been hastened by these causes—and weakened constitutions and bodies rendered unfit for the burdens of life, have, in numerous other instances, been the penalty of attempts to acquire "an education" too rapidly.

We do not desire, however, to argue the question over again at the present time; but simply to state clearly our position. It is this—that if the regulation of six hours daily schooling is to continue, the lessons and the arrangements for recitation should be such that no scholar would be obliged to study out of school. If they are to be confined six hours daily at their books, that certainly is as much as ought to be required—and all branches which cannot be attended to in that time had better be dropped. If the pupils must study out of school, then shorten the school hours.

New Publications.

A TREATISE ON ARITHMETIC, combining Analysis and Synthesis. Adapted to the best modes of Instruction in Common Schools and Academies. By James S Eaton, M. A. Boston: Brown, Taggard & Chase.

This new Arithmetic has been recently adopted for the public schools of our city, after a very thorough examination, and is believed by the Committee to be as well adapted to common school instruction as any that can be procured. It was introduced in the Boston schools in July last. We are opposed to changes in school books, unless they seem to be imperatively required. In the present case, we are informed that the editions of Greenleaf's Arithmetic formerly in use in our schools could no longer be procured—being out of print—and that a change of some kind was necessary—either a new work entirely, or the procuring of new editions of Greenleaf.

ARABIAN DAYS' ENTERTAINMENT. Translated from the German. By Herbert Pelham Curtis. Boston: Phillips, Sampson & Co 1858.

Like the famous stories of the Eastern Sultana which have for untold generations fascinated the youthful reader of the "Arabian Nights' Entertainments," the tales in this book are of Oriental life and manners, and have all the romantic interest which ever attaches to such narratives, in the European or American mind. That they will rival the "Nights' Entertainments" in popularity, we are not prepared to say—but we have no doubt the stories will be found very attractive—They are divided into different parts, under the headings of "The Caravan," "The Sheik of Alexandria and his Slaves" and "The Tavern in Spessart."

THE FILLIBUSTERS.—Besides the schooner Susan, which recently "eloped" and went off to sea with a party of fillibusters, it is said the steamer Fashion has also sailed from Mobile on her last with a large party on board, professing to be bound for Texas, but really it is supposed for Key West, where the fillibuster are thought to have a rendezvous. The reason given for the failure of the United States cutter to pursue the Susan is that she got accidentally (?) ground.

For the Whig & Courier.

Several articles have appeared in your paper reflecting severely on the official action of the present Superintending School Committee.

If all these communications are true, if all the charges made by the peripatetic busy-bodies of our streets are correct, then this Committee is a nuisance which ought to be summarily abated forthwith.

Time and space will hardly suffice to enumerate all their offences. In the exercise of a little brief authority they have had the audacity to refuse to repeal a rule which has been in existence about twenty years, requiring scholars during November, December and January to attend school from "nine to half-past twelve in the morning, and from two to half-past four in the afternoon," although some fifty petitioners, awaking from a long Van Winkle sleep, have just discovered that this innovating revolutionary Committee have established this rule, and are clamorous for its instant repeal. Still this Committee, without a single bowel of compassion, will not heed the children when they cry—for an early dinner through this affecting appeal from their parents. Hence all the vials of their wrath are poured out on the offending heads of these tyrannical "autocrats."

Then the health of these scholars very seriously suffers because the forenoon session is extended half an hour! and because their mental powers are overtasked by a multiplicity of studies.

Why were the thunders of their anger restrained during all the past score of years! Why were they silent when their daughters pattered in former days for only one long session a day in the High School, during winter!

If a stranger, who had read and believed all the articles which have been published should visit our city, he would expect to see a sickly, puny race of living specters stalking about our streets, from whose cheeks all glow of health had long since departed; but instead of witnessing such ghastly objects, he would be surprised to meet in all his walks as vigorous, robust, active specimens of "Young America," making the whole air resonant with their cheerful voices, whose every movement and entire appearance bespeaks the most perfect health—and when informed that for the week last one interment had been made in Mount Hope Cemetery, he would naturally enquire, what has become of these dead and dying children, those unfortunate victims of the cruelty of this obnoxious Committee?

Again the Committee have turned the world upside down because they entertained the opinion that it would be an improvement, particularly, morally and intellectually, if brothers and sisters were educated together, and had inquired into the feasibility and expediency of making arrangements for accomplishing this object. Although they have been guilty of no overt acts in this respect—although they have not made this change, but have only taken certain initiative steps, they have received the most severe censure and denunciation, and the most direful evils have been predicted if their views are carried into effect.

In consequence of all these grievous offences, Mr. "Mechanic", and others threaten to be at home at the annual election, and oust these obnoxious individuals from the position of power and responsibility they have so much abused, and thus deprive them at one fell swoop of all the honors, emoluments, perquisites and salaries of office, and throw them upon the cold charities of the world to gain a livelihood by other means.

If such a fate awaits them, it will be received with all becoming composure and equanimity by one, at least, of the

AUTOCRATIC COMMITTEE.

Bangor, Dec 13, 1858

A fire company in Detroit have adopted a large triangle, each of its sides four feet, made of the best quality of steel, one and a half inches in diameter, and weighing 150 pounds, to be used as a fire alarm.

The exercise of "snow shovelling" is a favorite sport in Montreal in the winter season. A silver cup, the gift of General Sir William Eyre, is to be competed for this winter by the Montreal Snow Club.

A whole military company in Dayton, Ohio, fell in love with a beautiful young lady, and as they couldn't all have her, they compromised the matter by selecting her as their *vivandière*.

An aeronaut has constructed an immense balloon at Ogdensburgh, and is preparing to make a grand ascension. The capacity of the aerial monster admits a load of 16 or 20 persons. A brass band is to go up and serenade the stars.

The summer residence of a Mr Harris, at Brookline, was found ransacked a few days since, and upon search the burglar was discovered in the cistern, submerged to his chin—a cool operation, but not successful.

Just as an auctioneer in Hartford, was saying 'gone!' a few evenings since, his audience went through the floor into the cellar. The auctioneer, as soon as he found his legs, remarked that the accident would enable him to sell *lower* than before.

A SOBER MAN MORTALLY HURT AND TAKEN UP FOR DRUNKENNESS. On Thursday, in New York, Bernard Gilligan, a steady young man, was knocked out of a wagon which came in collision with another wagon. His skull having been fractured by the fall, he was taken into a drug store, where he lay insensible. A short time after, a policeman came along, and taking possession of the young man, conveyed him to the Police Court, where he entered a complaint against him for drunkenness, and he was committed to prison for examination, and was found dead in his cell about two hours afterwards.

Madame Moet, the celebrated proprietor of the Champagne vineyards, France, whose daughter was married recently, has just met with her death in a most extraordinary manner. She was gathering flowers in her garden when she felt herself bitten by a fly. She thought nothing of the slight puncture, but in the evening her face began to swell, and a few days afterwards she died in intense agony.—It is supposed that the fly must have fed upon putrid flesh.

NORTH AND SOUTH.—Thirty seven persons, including a professor in Oberlin College, and a minister, have been indicted by the grand jury in Ohio for aiding in the rescue of a fugitive slave. The grand jury in Charleston refuse to find a bill against the crew of a slave ship taken with a cargo of slaves on board—The whole Democratic press denounces the free North for unfaithfulness to law and order; the President takes occasion in his message to select Charleston, of all the cities in Union, to be praised for its devotion to law, in not attacking the fort and the frigate Niagara, and re-enslaving the negroes who had been liberated.—*Providence Journal.*

Judge Palmer, of one of the districts of Minnesota, has decided that the increased rate of interest, such as three or five per cent, per month agreed on in promissory notes, to be paid after the note is due, and unpaid, is legal and collectable. The ground of the decision is that the increased interest is to be looked upon in the nature of a penalty or a damage, for the non-fulfilment of a contract, rather than as interest for the money loaned, and it is therefore not a violation of the usury law.—The Supreme Court is yet to pass on this singular decision.

The wealth of the two great centers of Boston and New York amounts to eight hundred millions of dollars—New York having $525,000,000. Boston $475,000,000, or a little more than half as much as New York. The property of Boston is one hundred millions more than that of the city of Philadelphia, and nearly three times that of Baltimore. It is said that Boston has more property, *per capita*, than any other city in the world.

The New York Day Book argues because the negro is inferior to the white man, therefore he was made by the Almighty for the white man's slave. The wandering Arabs of the Great Desert reason in the same way in relation to Christians, and therefore enslave the unfortunate whites who fall in their way, and demand for them a heavy ransom.—*Bath Times.*

The position of the Democracy North and South on the English bill reminds us of the answer given to a lawyer who asked a witness "which way did the stairs run?" The witness replied that "one way they ran up stairs, and the other way they ran down stairs."—*Louisville Journal.*

A main reason urged for the project of occupying the Northern provinces of Mexico, is that the security of the overland mail route requires it. First, the route is selected through a region exposed to depredation, and then the depredations are made the pretext for invading the foreign country.—*Providence Journal.*

Two men in Cincinnati have made a match to eat mush and milk for $10, and the stakes [illegible]. The one was beaten first, [illegible]

LOCAL AND MAINE ITEMS.

TESTIMONIAL OF THE SONS OF TEMPERANCE.—The following resolves were passed by the Bangor Division of the Sons of Temperance, on the 7th inst:

Resolved, That we tend r to Mr Smith Andrews, Artist, and Proprietor of the splendid Temperance Panorama, entitled *the Rake's Progress*, the thanks of this Division for the liberal arrangements afforded the Temperance public, under the patronage of the Division, to witness the Panorama.

Resolved, That we can heartily commend the painting to the Temperance public as a most valuable auxiliary in the great temperance reform, and as a work of Art worthy of the patronage of all.

Resolved, That these resolutions be published in the daily papers of this city.

JOHN CONANT, W. P.

H. T. FAULKNER, R. S.

☞ We are requested to state that on account of repairs going on at City Hall, the Washingtonian Temperance Meeting will be omitted this week.

GOOD HORSE FLESH.—The Times remarks that Mr A G Hunt has been offered, by Boston parties, $800 for a black four year old colt—the taking price being $1000.

DEER BOUGHT.—Mr William Low received thirty-two carcasses of venison on Tuesday evening, by Coburn's Mattawamkeag Express—total weight 2400 pounds.

MISS VARNEY AT BATH.—We see it announced in the Bath Times, that Miss Lizzie Varney of this city, was to give one of her Readings, before the young Men's Christian Association of Bath, on Wednesday evening.

FIRE AT ORNEVILLE.—We learn that on Monday night last, a saw-mill and bedstead factory, at Orneville, belonging to George A Pierce Esq., of Frankfort, were destroyed by fire—We do not learn the cause of the fire, or whether there was any insurance.

A thaw, accompanied with some rain, has prevailed in this region since Monday last, but the sleighing held on pretty well up to yesterday, when it rather "gin out"

AROOSTOOK CROPS.—Mr R M Manser furnishes the following statement of the crops raised last season by Mr Bartlett Smith of Houlton, on 6 acres of new land and 9 acres of land which has been under cultivation fourteen years,—viz: 380 bushels of oats, 500 do potatoes, 200 do turnips, 30 do carrots, 9 do rye, 3 do of beans—and 8 tons of hay. Of the oats 63 bushels to the acre were obtained on new land.

We regret to learn that Rev Mr Fiske, of the Water Street Church, has been unable to preach for the last two Sabbaths. The last we heard of him he was convalescent, and in a fair way soon to resume his accustomed labors.—*Bath Times*

ATLANTIC & ST. LAWRENCE RAILROAD.—The State of Maine gives the following statistics in regard to the travel and traffic which has passed over the line between Portland and Island Pond, during six years ending with 1857. They show, up to that time, a constantly increasing business:

The Brunswick Telegraph in an article on the Aroostook Railroad, says the Atlantic & St Lawrence R R pays nothing, and but for the fact of the lease of its line to the Grand Trunk, would be a poor unfortunate Railway. Such an impression seems to have gone abroad, probably because of our congratulations, on the fact of its lease.

That was a fortunate operation, for it raised the stock from $38 per share, to a permanent 6 *per cent* stock, and its value in other respects, cannot easily be overstated.

But we are not disposed to overlook the fact that the line from Portland to Island Pond has always had a large local traffic. We give below a table showing the cost and the traffic Receipts of the line, for a series of six years.

BATH RELIEF ASSOCIATION.—At the annual meeting of the Bath Relief Association on Monday evening, the Treasurer, C S Jenks, reported the whole amount of funds received by him, during the year was $597, of which amount he had paid the Trustees or by their orders, $580 80, leaving a balance in the hands of the Treasurer of $16 20.

The whole number of families which have received aid during the past year is 122. The whole number of persons aided would doubtless amount to between 500 and 600.

DEATH OF ISAAC STURDIVANT.—Isaac Sturdivant, Esq. the largest real estate owner in this city, died at the residence of his son-in-law, Mr Drowne, in Exeter, N H., on Monday. He was born at Yarmouth, in that part of the town which was set off to Cumberland, March 4, 1784. In early life he took to the sea, and eventually became a ship owner, as well as ship master. He had accumulated a very large estate, both real and personal, in this city, owning more bank stock than any other person in Maine. He leaves four children—two sons and two daughters.—*Portland Argus.*

TEMPERANCE CONVENTION.—A meeting of the Cumberland County Temperance Association, will be held at the Baptist meeting-house in Yarmouth, on Thursday the 23d instant.

DEATH OF A WINTHROP MAN IN AFRICA.—The last steamer from Europe brought the sad intelligence of the death of Noah C Morrill of Winthrop. He sailed from Boston on the 6th of July, in the brig Robert Wing, for the west coast of Africa, in the employ of A Bartlett, Esq. as clerk and supercargo. He was a son of Mr Gustavus Morrill, of Winthrop, and died at Sierra Leone, Sept. 20th, of African fever. He was about 19 years of age.

DEDICATION.—On Thursday last the new Congregational Church at Princeton was dedicated by appropriate services. At 11 o'clock a large audience assembled to participate in the services. A beautiful 'Chant,' by the choir of Rev. Mr Keeler's Church, at Calais, commenced the exercises, which followed by prayer and reading of the scriptures by Rev J A Steele, of Milltown. The sermon was by Rev Mr Keeler, from the following beautiful and appropriate text, found in the 96th Psalm, '*Strength and Beauty are in his Sanctuary.*' The Dedicatory prayer by Rev Mr Ross, singing, and a closing prayer by Rev Mr Walker, concluded the morning exercises.

In the afternoon a Church was organized. A sermon in the evening by Rev Mr Sasser, of Dennysville, was well received, and to all who were present the occasion was one long to be remembered.—*Machias Union.*

[illegible] A fine pair of well matched horses, belonging to Mr John White, were drowned last week in attempting to cross Boobahagan Lake, [illegible] *Machias Rep.*

SUICIDE.—Mrs Garrett, a woman more than 80 years old, committed suicide by hanging herself to the bedpost, with her apron, in Monroe on Tuesday of last week. She had been insane for some time, and was closely watched; but on the day mentioned, she was left alone a few minutes, and shortly after discovered suspended by the neck.—*Clarion.*

ACCIDENT.—Mr Charles Moore of Concord, while crossing the river on the ice, opposite Bingham Village, on Friday last, slumped through the ice and broke his leg.—*Clarion.*

In the Chicago post-office mails are received daily from twenty railroads. Thirty five hundred mails (the Press says) are made up every day.

The Baltimore Sun says that the trial trip of Ross Winans' cigar shaped steamer will be made in about three weeks. She will be propelled by four engines of 1,000 horse each.

"The Citizen," John Mitchell's new paper at Washington, says that the Kansas question is not settled. That is a pretty way to support the administration. The question has been "settled" more than a dozen times.—*Providence Journal.*

A fire occurred in the Governor's room at St Paul, Minnesota, last week, by which $190,000 in Minnesota currency was destroyed; and the Times, of that city, says that the Governor, State Treasurer, and State Auditor were concerned in its destruction.

THE SENATE COMMITTEES.—The following changes have been made in the committees of the United States Senate since their announcement on Monday. On Military—Chestnut instead of Iverson, on Lands—Chestnut instead of Broderick; and Fitzpatrick has been added to the Committee on Territories.

THE HONEYMOON ON THE OCEAN WAVE.—On Saturday no less than twenty newly married couples sailed from New York for Europe in the steamer Arago.

THEORY AND NOT PRACTICE.—We saw a short time since a man who, in trying to skate, got a terrible fall backwards. "Why," said a friend, who was with him, "I thought you understood it better." "Do you see," he replied, "I have the theory perfectly, I want nothing but the practice."

MARRIED.

In this city, Dec. 11, by Rev Mr Tarbox Charles Rowe, of Charleston, and Miss Mary Jane Lavery, of Bangor

DIED.

In this city, Dec 15th, Dea Royal Clark, aged 75 yrs. The citizens of Bangor will remember Dea. Clark as one of their oldest and most valued citizens. He came to this town in the year 1816, and while he has been witnessing the growth of the city from that early period he has been very intimately connected with its civil and religious interests. He was once the Sheriff of this county, and during the administrations of Presidents Monroe and Adams he was Postmaster of this city. He was one of the original members, and first deacon, of the First Baptist Church, and having faithfully performed the service of youth of labor in the church, he continued to be the honored and much respected counsellor and adviser in the church till his death.—[Com.

[The funeral will take place on Friday, at 10 o'clock A.M, at his late residence on Centre street.

EATON'S ARITHMETIC.

BANGOR, Oct. 30, 1858

At a meeting of the School Committee, held this evening, it was

ORDERED—That EATON'S ARITHMETIC be introduced into our Intermediate, Grammar and Select Schools, instead of Greenleaf's, now in use. Attest:
(Signed) FRED'K H. SHAW, Sec'y.

The decided satisfaction which this book gives in the school-room, and its unprecedented success, prove that it is a work of rare merit.

All those who are dissatisfied with the books now in use, are requested to give this an examination.

They will find it the most clear, concise, logical and practical treatise on written Arithmetic extant, following as it does the plan of Colburn's First Lessons—the two make a complete and popular series.

Copies furnished for examination on receipt of postage—18 cents—on application to

CONGRESSIONAL.

WASHINGTON, 18th.

Various memorials of little importance were presented with the exception of one from the convention of Iron masters who met in Phila. on Dec 20, 1849 In this memorial Mr Odmerod addressed the Senate showing from the tables of the Secy of the Treasury that an ad valorem duty on iron is alike opposed to the interests of government and the consumers of foreign iron and steel.

The Senate then declined to call up Mr Clingman's Clayton Bulwer resolution by a vote of yeas 24, nays 25.

After an ineffectual attempt to take up the Pacific Railroad bill the vote being 24 in favor to 24 against it, the Senate went into executive session

Among the petitions was one from Mr Wright bookseller in Bradbury N. Y., asking Congress to purchase and circulate gratuitously a large edition of the Book on the Mormons. After a session of three hours the doors were opened when the Senate adjourned

House. Mr Comins, of Mass, gave notice of his intention to introduce a bill to modify the tariff law, and impose specific duties on iron and other articles to which that principle can be applied.

Mr Bowie, of Md. introduced a joint resolution with a view to obtain a modification or reduction of the duty on American tobacco by foreign governments, which was referred to the committee on Agriculture

The consideration of the Watrous impeachment case was resumed.

Mr Stephens of Georgia, said that this was the first time an attempt had been made to impeach a federal officer for corruption, a fact which could not be applied to any other country The impeachment must not only be for an offence but for high crime and misdemeanor and the House must first determine the offence according to the principles of the common law If it be true, as the Spencer memorial says that Judge Watrous became secretly and fraudulently interested in a land claim with the purpose of litigating it in his own court it would be corruption and the charge should be forthwith investigated by the Senate

He however had failed to see one whit in the evidence establishing such a fact, nor was it true that Judge Watrous concealed his interest in certain land cases pending in his own Court for four years

Mr Houston, of Ala., said that the resolution heretofore reported from a portion of the committee on the Judiciary, that Judge Watrous ought to be impeached of high crimes and misdemeanors, did not pass upon the guilt or innocence of the accused—that was for the Senate, the only competent Court, to decide He argued that an offence must not necessarily be such as is indictable in law in order to impeachment, and in support of his argument cited the case of Judge Pickering, who was dismissed from office, one of the charges against him being drunkenness on the bench

The resolution pending was in favor of impeachment, for which the House, by 111 against 91, adopted a substitute, that the testimony taken before the Judiciary committee, in the case of Judge Watrous, is insufficient to justify the preferring of articles of impeachment against him for high crimes and misdemeanor The House agreed to the resolution, as thus amended, by 112 against 86.

Mr Boyce, of S C, called up the report made from the committee on Elections, last session, stating that it appears there were such tumults, riots, intimidations and injustice in the 3d Congressional District, Baltimore, in Aug., 1857, that there could not be a fair election, that it shall therefore be declared null and void, and that the Speaker be requested to notify the Governor of Maryland of the fact. Mr B offered a resolution admitting Mr White, who contests the seat of Mr Harris, to a right on the floor of the House.

Pending the consideration of the subject the House adjourned.

From Washington.

WASHINGTON, 18th

There is now much less apprehension of trouble with Great Britain than was anticipated when the intelligence was first received respecting the recent events in Central America The rumors that the President intended sending Congress a war message, are not well founded The administration has still under consideration this important subject, and its most prominent friends say its action will be such as will meet the reasonable expectations of the country The correspondence called for the resolution of the committee on Foreign Affairs was sent to the House to-day and will be presented to morrow, until which time it will not be accessible It is known however, from the despatch of Com McIntosh, that after the steamer Washington was boarded by the British officers he demanded explanations, when Capt Aldham disclaimed any intention to exercise the right of search, saying he had merely boarded the Washington to get the news, in other words he had merely made the usual friendly visit—the same as our own officers make to British vessels Sir Wm Gore Ouseley and his Secretary have explained the matter pretty much in the same way. The prominent facts occurs in the correspondence that Great Britain exercises a protectorate over the Musquito kingdom.

Mr Ouseley's secy said the British had abandoned the right of search and that therefore the visit was not made under it.

It is further stated that a meeting was held at Greytown when the inhabitants resolved they would maintain their independence and applied to Mr Ouseley to assist them in so doing Mr Ouseley informed them that the proposition would receive due consideration in the proper quarter and justice be done to all parties

Com. McIntosh thinks the explanation of the British, in respect to the visit to the Washington, satisfactory, frank and fair.

The fleet surgeon represents the health of Com McIntosh such that he should no longer remain in command of the Home Squadron.

The Senate, in Executive session to-day, disposed of much business. C M Pine, editor of the Chicago Herald, was confirmed as Marshal for the Northern District of Illinois. All the Illinois appointments made during the recess of Congress, were also confirmed without opposition, together with appointments in other States. The treaties with China and Japan were also ratified Hon. Wm. Preston was confirmed as Minister to Spain, Gen Ward, of Ga as Minister to China, and Hon J Glancy Jones as Minister to Prussia(?) On this last there was a party division.

It is said that Hon James B Clay, of Ky, has written a letter declining to be a candidate for re election to Congress.

Hon Jeff Davis takes the place of Mr Clingman in the Senate committee on Printing.

Southern papers state that Col Lockridge is at present on a visit to Natchez, and that he is directing his attention to Northern Mexico, with a view to the peaceful emigration thither of those who would take an interest in its future political and social welfare.

Injunction on a Telegraph Co.

PORTLAND, Dec. 18th.

The Union line of telegraph, recently opened between this city and Boston, and which was announced as the commencement of an opposition line to Halifax, was prevented closed to-day by injunction from the U. S. District Court, for a glaring infringement on the rights of the Maine Telegraph Co.

New York Items.

NEW YORK, 16th.

Gen Scott sailed to-day on the steamer Marion for Charleston, on his Southern tour of inspection. A large number of friends accompanied him to the boat, and the occasion was signalized by the firing of a salute of 100 guns.

The Washington correspondent of the Commercial Advertiser says that Capt. McIntosh has written to the department that the British vessels of war did not visit the Washington on account of any pretension to the right of search, but on the grounds of the duties of Great Britain under her protectorate of the Mosquito Coast, and also in virtue of her engagements with Nicaragua for the enforcement of her police arrangements. The emigrants on board the Susan, from Mobile, will receive a similar visitation, and if our own naval force should, in disobedience of positive orders, suffer them to enter, they will be followed by British forces into the interior, Lord Napier has avowed this to be the purpose of his government and its officers at Greytown.

The Agent of the steamer Washington has announced that that vessel will be dispatched to Nicaragua again on the 20th, and that all the passengers who wish to go can do so.—Very few of these however seem disposed to avail themselves of this offer. Many are selling their tickets at a heavy discount, and others are demanding back their passage money.

CAUTION TO THE PUBLIC

On account of the numerous frauds and impositions upon travelers those bound to California are cautioned to buy tickets at the only authorized agencies of the United States Mail Line as below.

By order of the Postmaster General, the United States Mail steamships will hereafter be despatched from New York to Aspinwall on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Steamers without any extra expense. The only through tickets guaranteed to the Isthmus

Transit made in four hours entirely by daylight, thus avoiding the great exposure by night in open boats to and across and 12 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S Mail steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail line a sure and short passage with the greatest comfort and safety to them

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama and tickets thus signed can be obtained of the only authorized Agent for the U S and Pacific Mail Steamship Companies, in the city C. L. BARTLETT, Agent

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

It is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard stiff, and cracks, but when this waterproof thus remedied. By an application of this preservative, it remains soft and entirely impervious to water.

Having engaged for 25 years in the manufacture of leather in all its branches, and being much troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last, by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet tannery with my boots constantly in water, and have not had my feet wet during that time I can therefore in full confidence recommend it to the public as the best article in the market

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Hancock, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c , address

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President Office, 70 Wall-st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations,

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices.

Bank Checks—35 cts per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts per lb.

For wrapping silks and other fine articles it is excellent, as it prevents moths 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J , of about 300 Horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No 70 Wall street, New York

American & Foreign Patents,

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U S Patent Office, Washington under the Act of 1837,)

76 State St., opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain France and other foreign countries Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS MASON,"
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE,
Late Commissioner of Patents

"Boston, February 8 1858

Mr R H Eddy has made for me THIRTEEN applications on all but one of which patents have been granted, and that *is now pending* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges. JOHN TAGGART "

From Sept 17th, 1857, to June 17th 1858, the subscriber, in course of his large practice made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

R H EDDY.
